Our job is to help you do yours. **Capsa Healthcare** is built upon a 50-year foundation of experience and innovation designed to improve the organization, efficiency, and accuracy of healthcare providers. We strive to elevate your performance by offering innovative solutions that positively impact clinical effectiveness in healthcare environments. We understand the delivery of healthcare cannot wait, which is why we continually invest in product development, technology innovation, service, and support to make sure we are the logical choice for products that elevate the performance of healthcare delivery at the point-of-care.

Capsa Healthcare provides an extensive portfolio of mobile computer carts, point-of-care wall mount products, and service programs designed to optimize your health IT program. With extended cart runtime and simple serviceability, Capsa's mobility solutions improve user experience and support better clinical workflow.

Humanscale

Computing Workstations

The Trio Computing Workstation is a design blend of the most-intelligent and most-reliable computing carts ever offered. Trio offers a refined, ergonomic design style coupled with innovative advances in usability, convenience, and power system runtime.

- Slim profile, improved mobility and enhanced features
- Flexible hybrid power system for extended mobile runtime
- Configurable with an array of drawer and bin options
- New updated N-Sight™ Fleet Management software with enhanced user management tools

Simple Mobility

Slim profile, lightweight platform with enhanced steering assist for easy mobility and control

Storage Flexibility

Supports a variety of storage options including MaxBin™ storage module

Intuitive Power

NEW GoLife scalable power system fits any runtime need

Features & Models

N-Sight™ Fleet Management

Enhanced N-Sight software to monitor and optimize fleet utilization

Thoughtful Tools

Control center provides simple touch screen navigation to informative tools

Personal Ergonomics

Personally adjustable for optimal user comfort including memory presets

Fleet Management

$N\text{-}Sight^{\text{\tiny{M}}}$

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts (*Trio & CareLink only*).

▼ N-Sight[™] helps you monitor your fleet.

Optimize Your Fleet

N-Sight helps facilities improve asset utilization, maximize fleet performance and value, and help prevent issues before they impact clinical workflow. The cloud-based N-Sight software features analytics to support optimized fleet utilization and simplified user management tools.

Robust Cloud Solution

N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.

Maximize Uptime and Availability

Maintain cart availability while proactively monitoring cart fleet power levels and performance. Analytics provide visibility into power usage and allow adjustments to technology settings to maximize cart runtime.

Right-Size Fleet

Evaluate cart usage patterns and peak needs to determine if the number of carts deployed meet current clinical demands. Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization.

Remote Fleet Management

N-Sight enables remote management of cart user groups, PIN codes, and user permissions. Save time finding lost carts with cart locator*, based on the last wireless access point.

Configuration Settings

Centralized management of cart configurations for displays & alerts, PINs, notifications and service requests.

Integration with Hospital Systems

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SMTP input.

Medication Workstations

The MedLink Cart is a medication management solution that ensures safe, accurate medication administration. It's specifically designed to reduce human error, keep patients safe, and create a closed-loop medication system using lockable drawers and patient wristband scanning. This ensures each patient receives the correct medication while allowing caregivers to focus on patient care.

- AutoFit[™] Technology offers ease of adjustment for each user with combined adjustment for the work surface, keyboard, and display
- 20" (50.8 cm) height range ensures comfortable ergonomic accommodation for seated and standing caregivers
- Power Track[™] steering enables caregivers to easily maneuver in tight spaces and corridors
- Modular drawer design allows customizable layout and drawer sizes to meet workflow demands
- RFID technology assists in locating each patient drawer to cart, cassette, caregiver

AutoFit™ Technology

MedLink Standard

MedLink High-Capacity

MedLink Standard Laptop Cart

MedLink™ Pro Software

MedLink Pro, the next generation in medication management software, retrieves and displays patient data, and aids in the secure delivery of medication by healthcare professionals to promote patient safety. MedLink Pro is expertly designed to reduce human error and supports a closed-loop medication system.

- Drawers can be assigned to an individual patient through electronic labeling
- HL7 integration allows patient labels to be selected from the existing hospital patient list rather than manual entry
- RFID-embedded technology assists in locating each patient drawer — to the specific cart, cassette and caregiver
- Assigned drawers can be opened automatically by scanning a patient wristband barcode
- Integrates with Microsoft Active Directory

See page 34 for storage drawer options See page 37 for accessory options

Mobile Documentation Cart

The non-powered, ultra-lightweight SlimCartTM glides easily through tight care settings, providing a flexible, cost-effective solution for mobile documentation. The compact profile and 4" casters allow for simple mobility through doorways, in patient rooms or in hallways. The SlimCartTM provides a generous work surface with a bi-directional slide-out mouse surface and is configurable with your choice of technology.

- Configurable with your choice of laptop, tablet, or lightweight monitor
- Ultra lightweight, starting at just 27 pounds
- 15.35"w x 16.73"d compact profile for maneuvering in tight spaces
- Flexibility to configure with one or two storage drawers

Storage Drawers

Optional single or dual locking removable drawers for efficient and secure storage

Kidney Cart & T4

Computing Cart

The non-powered Kidney Cart is an ultra lightweight mobile documentation cart with a generous-sized kidney shaped work surface. Its compact profile and 3" casters allow easy movement through care settings and around tight spaces.

- Four work surface color options coordinate with modern interiors
- Generous 18" D x 28" W work surface provides added work space
- Smooth comfort-rounded work surface edges
- Cable and power cord routing hole integrated into work surface
- Sit to stand height adjustment

The T4 Mobile Technology Cart is a cost effective, versatile and durable solution that can be deployed as a traditional point-of-care workstation or for patient-facing applications such as video communication.

- Configurable with a range of technology including laptops, tablets and All-in-One PCs.
- Simple, easy-to-clean surfaces promote a healthy environment
- Provides caregivers with a compact pointof-care workstation for charting and patient documentation tasks
- Secure a laptop to the work surface with an integrated locking bar
- Facilitates bedside communication between patients and caregivers

T4 Technology Cart

CAPSA LX5 & M40

Computing Cart

The LX5 Laptop Cart offers a lightweight, non-powered design to accommodate your choice of laptop computer and the flexibility to configure with optional storage. The LX5 promotes simplicity and value to help lower the total cost of mobilizing health IT software.

- Accommodates widescreen laptops up to 17"
- Ergonomic adjustability is simple with LiftAssist™ height adjustment
- Laptop anti-theft security bridle
- Small footprint, slim profile, and superlightweight
- Flexibility to configure with storage drawers including 3" or 6" depth

The M40 Computing Cart offers light-weight construction and compact ergonomic design for mobile documentation needs. The laptop enclosure provides a large worksurface area and secure technology storage.

- Oversized 20" wide x 11" deep work surface
- Work Surface has a 16" range of adjustable height
- 19" x 21" compact base for easy maneuvering in patient areas and tight spaces
- Accommodates up to 17" notebook and tablet PCs
- Contoured handles minimize strain when pushing
- Integrated keyboard light with auto shut-off feature for nighttime use

CAPSA V6 Wall Station

Wall Mounted Workstations

The **V6 Technology Wall Station** combines exceptional space-savings with ergonomic design for comfortable caregiver computer use, whether seated or standing.

A range of ergonomic adjustments allows caregivers to easily position for a healthy computing experience and facilitates their engagement with patients.

- Flexible monitor arms ensure technology never gets in the way of patient-caregiver interactions
- Easily customizable with numerous monitor and keyboard arm lengths
- Choose an accessory mount or rail to support peripheral shelves and mounts for gloves, wipes, and other common items
- Features a sleek, sustainable aluminum design, neutral color palette, and streamlined aesthetic
- Cable management system and wipe-clean finish are designed for easy cleaning to ensure effective infection control

Adjustable

Flexible monitor arms facilitate patient-caregiver interactions

Configurable

Easily customizable to fit care space - with or without extender arms

Ergonomic Design

Encourages comfortable and convenient computer use

CAPSA V/Flex Wall Station

Wall Mounted Workstations

Combining exceptional height adjustment with flexible arm options, the **V/Flex Wall Station** satisfies nearly any healthcare application requirement. Setting a new standard for ease of use and engineered to support caregiver workflows, V/Flex offers effortless sit-stand functionality.

- Ergonomic

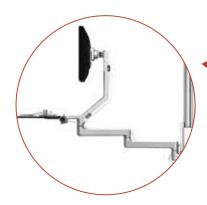

Full height adjustability and convenient sitstand functionality

- V/Flex offers ergonomic comfort and ease of use with full height adjustability and convenient sitstand functionality that fits 98% of the population
- Adjusting the height requires less than a pound of force eliminating strain on arms, lower back, and neck muscles
- V/Flex features a range of versatile arm options, including straight arms and a Solo arm to hold a monitor and keyboard
- The keyboard can be mounted directly onto the track, saving space and minimizing the unit footprint

Space Saving

Slim profile when stowed maximizes space in care environments

Flexible

Range of arm options, including straight arms and a solo arm

CAPSA | AX Series Arm

Monitor Arms

The AX Series Arm lets you select the combination of components to build your ideal health IT workstation. When price and value matter most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

AX Series ArmWith Monitor Extender

AX Series ArmWith Keyboard Extender

- Provides effortless use through a flexible range of motion, while supporting patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of healthcare environments
- Slim profile when stowed for care settings that require compact and functional workstations

General Specifications:

- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:

- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

CAPSA | Fluid Wall Arms

Wall Mounted Workstation

The Fluid Wall Arms are designed to provide maximum stability, flexibility, and functionality for clinical documentation and patient interaction in any healthcare environment. The Fluid ULT arm supports a total weight capacity up to 20 pounds, while the Fluid UHD supports up to 35 pounds.

- Independent monitor and keyboard rotation of 180 $\!^\circ$
- 22" in vertical arm adjustment with increased lower range supports seated or standing patient interactions
- For maximum extension, an optional extension arm to provide 62" of reach into care environment
- Slim profile under 9.5" when stored to maximize space
- Allow for mounting onto previously installed industry compatible tracks or supplied 34" track

Easy to Organize

Expansive work surface with left/ right mouse surface and enclosed keyboard storage

Maximum Extension

Optional extension arm provides up to 62" of reach that allows closer patient engagement

Easy to Adjust

22" in vertical arm adjustment with 180° independent monitor and keyboard rotation

General Specifications:

- Monitor mount standards: VESA 75mm, 100mm
- Keyboard pivot range: 180°
- Monitor rotation range: 180°
- Monitor tilt range: >40° (101.6 cm)
- Vertical monitor adjust: 9.5" (24.13 cm)
- Vertical arm adjust: 22" (55.88 cm)
- Weight capacity: ULT up to 20 lbs (9.07 kg)

UHD up to 35 lbs (15.87 kg)

- Work surface size: 11.25" x 22" (28.57 x 55.88 cm)
- Mouse surface size: 8.5" x 9.65" Left/Right (21.59 x 24.51 cm)
- **Keyboard tray size:** 8.75" x 18.5" (22.22 x 46.99 cm)
- **Storage profile:** <9.5" (86.36 or 121.92 cm) 34" or 48" track options (86.36 or 121.92 cm)

Tandem Arm & Slim Line

Wall Mounted Workstations

The Tandem Arm and Slim Line redefine wallmounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

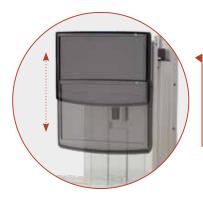

Lighted Worksurface

Task light with auto shut-off illuminates the work surface for nighttime use

Keyboard Drawer Extension

Keyboard drawer extension with integrated wrist rest reduces strain

Monitor **Adjustment**

Monitor Bracket allows for 5" of vertical monitor height adjustment

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5"w x 11"d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored

CareLink™ Fetal Monitoring Cart

The CareLink™ Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

Features

- Dual-swivel monitor mount supports up to 22" monitors
- Stable open shelf supports and secures a variety of Fetal Monitoring systems
- N-Sight[™]fleet management for remote asset management
- N-Stride[™]steering control for effortless maneuverability and control
- Expansive work surface
- Height adjustable with electronic lift

Phlebotomy Cart

Configure Trio or M38e as a flexible, mobile Phlebotomy workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies.

Features

- Large work surface with raised edges and expandable surface feature
- Configurable to meet workflow needs
- · Simple electronic height adjustment
- Slim profile for tight care settings and ease of mobility
- Ergonomic adjustments, easy maneuverability
- Increased runtime for improved uptime performance

Registration Cart

Configure Trio or M38e for a flexible, mobile workstation that enables you to move easily from one patient room to another. Both platforms feature a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features

- Large work surface with rear utility bins and expandable surface feature
- Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
- Choose from manual or electronic height adjustment
- Slim profile for tight care settings and ease of mobility

Telehealth Carts

Telepresence Cart

Equip the Trio or M38e workstation to enable video communication and enhance telehealth workflow with real-time consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

Features

- Optional mounts for video or web camera above the monitor
- Optional I/O Pod for integrating peripherals
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- Large work area with expandable surface feature

CareLink™ Telepresence Cart

The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

Features

- Optional I/O Pod for integrating peripherals
