Exclusive! Wire Louvered Panels

Quantum's new chrome wire louvered panels offer a perfect mounting solution for all plastic hanging and new wire mesh hanging bins. Unlike a standard louvered panel where there can be the occasional concern of dust or dirt accumulation, Quantum's exclusive offering of wire panels, available in three sizes, completely resist any buildup of dust or dirt. Included direct mounting clips enable fastening to any surface (*wall, wood, concrete, drywall, etc.*) a snap (*note: mounting screws are not included as they differ based on what type of surface the panels are being mounted to*). Offset mounting clips are also available, can be used in place of **WLP-DMC** if you want to have wire panel mounted offset (*away*) from a wall surface making it easier to clean behind the panel (*sold separately*). Manufactured of heavy-duty chrome wire, Quantum's wire panels will offer years of dependable and heavy-duty service.

5 Shelf Starter Kits

Solid shelves are a solution where dirt, dust and spills are a potential issue. The solid flat surface allows for storage from small to large items and the marine edge perimeter prevents spillage. The double hemmed 18 gauge galvanized steel gives the solid shelf excellent strength characteristics. All solid shelf units consist of 5 shelves and 4 posts. Mobilize starter kit shelving unit using optional mobile kit **WR-00H**. See pg. 79. **Finish:** Galvanized Steel

Our Dunnage-Rack is as portable as it is versatile. Made from lightweight, heavy-duty HDPE, these are the perfect match for wet, or chemically intense manufacturing environments. A simple snap-together design makes it a breeze to raise finished goods and raw materials off the ground and away from moisture, dirt and traffic. When it comes to cleanup time, just sweep underneath! We offer the largest commercially available sizes in a high-capacity, low-cost dunnage solution that lets you reset and move workstations as often as you see fit. Plus, the grid-top design simplifies working with fluids and bagged goods because any spilled items will flow through the surface to the floor below.

Exclusive! Wire Louvered Panel

Quantum's new chrome wire louvered panels offer a perfect mounting solution for all plastic hanging and new wire mesh hanging bins. Unlike a standard louvered panel where there can be the occasional concern of dust or dirt accumulation, Quantum's exclusive offering of wire panels, available in three sizes, completely resist any buildup of dust or dirt. Included direct mounting clips enable fastening to any surface (*wall, wood, concrete, drywall, etc.*) a snap (*note: mounting screws are not included as they differ based on what type of surface the panels are being mounted to*). Offset mounting clips are also available, can be used in place of **WLP-DMC** if you want to have wire panel mounted offset (*away*) from a wall surface making it easier to clean behind the panel (*sold separately*). Manufactured of heavy-duty chrome wire, Quantum's wire panels will offer years of dependable and heavy-duty service.
