

# SuperVista™

USBCam 1.3M

*Digital Intra-oral Camera*

**\$598**

Industrial-Class CMOS Image sensor, pixels up to **1.3 Mega**

Optical glass lens, high light transmission, ensures to capture the most clear image instantaneously under complex oral circumstances

Direct connection to PC with USB2.0 Interface.

Innovated high efficiency imaging management software

Tech Data:	
Image sensor	1/4"1.3 MEGA pixel CMOS
Effective pixels	640*480 ~ 1280*1024
Focus output	530mm
Video output	High speed USB2.0
Focus type	Fixed (auto focus)
External power supply	None
Cord length	3M
Special features	two image capture buttons
Operation systems	window 2000 XP / vista
